

Anannya Sanjay

Hello, I'm Anannya from Kerala.

Creative **problem solving** has been a way of functioning for me for a long time. Being able to learn and understand **people and behaviours** and do something about the knowledge in hand is extremely fulfilling. Love a good conversation about anything honestly, and give me any problem I'll come up with something or the other for sure.

MY EXPERIENCE

| | |
|---|--|

TOOLS

EDUCATION

2020-2022 Trivandrum International School - IBDP
2022-2026 Woxsen University - B.Des (Hons)

INTEREST

As an extension of design my love for **arts** never left my side, nor did **dancing**. **Nature** is my happy place and I used to swim a lot. Before I chose design I truly thought I would pursue **psychology** as the human brain and emotion is one of the most fascinating things to me. Oh and **FOOD** I love trying a lot of that, especially asian!
